To whom this may concern, BY

DEPUTY

First and Foremost Please understand that I am in need of immediate assistance as well am asking to please be removed from the north Branch Correctional Institution (N.B.C.I.) where I'm currently now being housed which also I'm ready to explain why.

Approximately on 7/14/12 during a cell-extraction (which has its proper protocol that is to be followed pertaining to "use of force") I was not only physically assaulted but more so was "severely beaten" by N.B.C.I. Correctional Officers (C.O.) at which time lead to "loss of feeling left thumb, left pinky both being numb, left hand torn tendon, swollen left wrist, swelling, Bruises from my face to my neck down (both eyes swollen), Severe pain, and more importantly was "severe choked" which lead to me fainting due to lack of oxygen.

I received all sorts of punches, knees, and kicks to my face and body while "safely secured handcuffed behind my back", I as well had my face slammed repeatedly against my cell floor. Note: "I received this same cruel and unusual punishment treatment from the time I left my cell, to medical, to the Property room (where I was stripped searched) to the Showers, and final to an unsanitary condemned cell where there was no mattress nor a sprinkler forcing me to sleep on a stool frame which I slept on for 3 days, I

also was denied certain mails.

Now respectfully being said to whom ever this notation may concern, I have yet to receive a response from "101 W. Lombard St" concerning this complaint which truthfully I wrote on numerous occasions.

So once again, if needed I have all information and documentation needed pertaining to this matter such as: Times, dates, names, medical records, camera footage, witnesses, etc meaning anything I state I can prove based on facts and facts only. Also when sending me mail please send it "certified mail" or I will not receive it. My "legal mail" (which also can be proven based on facts) has been forwarded by other inmates (my old cell buddy "Lamont Johnson #351-249" being one of them) already. Factually speaking all this above is a "Federal offense" therefore as I stated before I'm in need of immediate assistance. Please note for the record all "ATP's removals" were file unfortunately I received no response.

Respectfully Submitted
